

BERGEN *County* NEW JERSEY

Due to the overwhelming number of registrations received for the COVID-19 vaccination, in an effort to best serve those who live and work in Bergen County, we are performing critical system maintenance at this time. This will allow for the County in partnership with Bergen New Bridge Medical Center to identify duplicate registrations, appropriate categories correctly, and filter those already vaccinated to maximize our ability to schedule.

All appointments for the Moderna COVID-19 vaccine are currently filled. Appointments will become available as additional vaccine doses are received from the State of New Jersey Department of Health. We will continue to do our best to administer the vaccine to as many Bergen County residents and employees as supply becomes available to us.

We thank you for your understanding and patience as we continue to take the necessary steps to help protect our community and put an end to the pandemic.
